

# DOILY EASTER EGGS

## Lesson of the Day:

Everyone is colorful in a different way. We all have different qualities about us that are good and we all have different things we're good and bad at. However, we're all beautiful on the inside. Show your colors and support your friends when they show their colors. We should all be able to be just who we are!

## Materials:

- Paper doilies
- Colorful cardstock
- Markers
- Paintbrush
- Water
- Glue
- Scissors

## Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students color the doily carefully so that it doesn't tear. They don't have to color each part individually, but they should try to color as much of it as possible.
3. Have them carefully paint the doily with water so the colors run. Set it aside to dry.
4. Have students glue the doily onto the cardstock.
5. Show them how to trace an egg shape and cut it out.
