

FATHER'S DAY POPSICLE STICK CARD

Lesson of the Day:

Sometimes we think so much about all our moms do for us that we forget our dads. In our society sometimes we say that boys don't care as much about things like flowers, or gifts, or being told nice things. But even boys like to get compliments and be told how they're special. Make sure you do that for your dad!

Materials:

- Popsicle sticks
- Glue
- Markers
- Paper

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students decorate their popsicle sticks however they like. They can be similar, the same, or all different. Have them think about their dad's favorite colors when they make it.
3. Have them write down 5 things they love about their dad.
4. Have them glue the popsicle sticks in a row to the back of the paper.
