

FINGERPAINT PINEAPPLE

Lesson of the Day:

Pineapples are a good source of vitamin C, potassium, and fiber. Pineapples take about 18-20 months to become ready to harvest.

Materials:

- Yellow, brown, and green paint
- White paper

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Place the white paper down, and have the students dip one finger into the yellow paint to make the pineapple shape
3. Then have the students dip one finger into the brown paint to continue to make the pineapple.
4. Lastly, have the students paint the top part of the pineapple.
