

HANDPRINT REINDEER ORNAMENT

Lesson of the Day:

Rudolph may have been weird to the other reindeer, but he had skills, value, and feelings. Be kind to everyone, even if they are a little different.

Materials:

- Brown construction paper
- Red puffballs
- Ribbon
- Pipe cleaners
- Decorations

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students trace and cut their handprint out of brown construction paper.
3. Punch two holes toward the top- one for the ribbon to make it an ornament, and one for the pipe cleaner antlers.
4. Have students add red puffball noses.
5. Have students add details to their reindeer, like jewels, glitter, or ribbons.
