

NEW YEARS NOISEMAKER

Lesson of the Day:

Celebrate the good things in life! Sometimes we focus too much on the bad things and forget about the good things. Make sure that you are celebrating all the good things you are already doing at the same time as you are following your resolutions and trying to be better!

Materials:

- Paper plates
- Glitter glue
- Ribbon
- Scissors
- Popsicle stick
- Hot glue gun
- Beans

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students decorate both of their paper plates with the year and other decorations. Glue or staple ribbons around the edges. Wait for the glue to dry.
3. Put one plate with the decorated side down. Fill it with beans.
4. Hot glue the popsicle stick to the edge of one plate. Staple the plates together around it.
5. Cover the staples with more decorations, like sequins.
6. Once all the glue is dry, use scissors to curl the ribbons.
7. Celebrate!
