

OCEAN CRAB PAPER PLATE

Lesson of the Day:

There are over 6,700 species of crab. Crabs are extremely powerful. They also help clean up the sea bottom by harvesting decomposing plant and animal matter.

Materials:

- Red Paint
- Paper plate
- Red construction paper
- Googly eyes
- Glue
- Scissors

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Fold the paper plate in half, and paint the top, and the inside red.
3. Have each student cut the construction paper into strips and glue them on the bottom of the folded paper plate.
4. Have students glue on the googly eyes.
