

# PAPER FAN

## Lesson of the Day:

Make sure you're taking care of yourself and giving yourself what you need. Are you hot? Fan off! Are you tired? Take a nap! Are you sad? How can you feel better? What about when you're angry? Make sure you are feeling the best you can feel so you can do the best you can do!

## Materials:

- Paper
- Craft sticks
- Markers
- Hot glue gun

## Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have kids decorate two pieces of white paper with markers. Make fun patterns and use bright colors.
3. Have them decorate the craft sticks as well, if they want.
4. Have kids fold their pieces of paper accordion style. Then fold the paper in half as well.
5. Hot glue one side of one piece of folded paper to the craft stick. Hot glue on side of the other piece of the folder paper to the other craft stick. Hot glue the remaining sides of the two pieces of paper together.
6. Once it is dry, open up the fan with the craft sticks and keep cool!
