

PIPE CLEANER BEAD BUTTERFLIES

Lesson of the Day:

Some people believe that every little thing can make a huge change in the world, even something as small as a butterfly flapping its wings.

That means we have to do as much good stuff as we can, even if it's just little things, to make sure that the impact of what we do is positive.

Materials:

- Beads
- Pipe Cleaner
- Craft Wire (optional)

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students string pony beads or other fun beads along pipe cleaner or craft wire.
3. Have students twist the pipe cleaner/craft wire into the shape of a butterfly.
4. Have them add pipe cleaner antennae if possible.
