

# POPSICLE DRAGONFLIES

## Lesson of the Day:

A lot of people love butterflies because they're colorful, but forget about dragonflies because they can see their colors as clearly. Dragonflies are beautiful too! Sometimes it's the same way with people- we get so focused on the people with bright, obvious personalities that we forget about the people who are more quiet or introverted. Make sure you notice everyone. You never know where you'll find a friend!

## Materials:

- Popsicle sticks
- Googly eyes
- Markers/colored pencils
- Hot glue gun

## Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have kids color three craft sticks or popsicle sticks. They can color two the same if they would like the wings to match, or they can color them all differently. Remember- dragonflies are bright!
3. Hot glue two of the popsicle stick in an X shape onto the third, toward the top.
4. Hot glue on two googly eyes onto the top of the dragonfly's head.
