

# SMALL KEY/COIN HOLDER

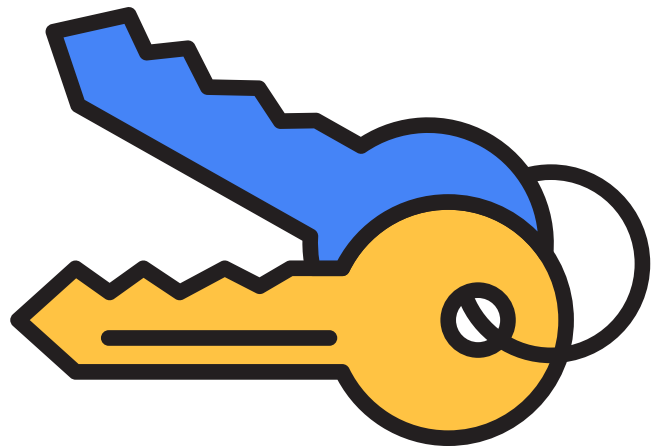

## Lesson of the Day:

It's almost always a good habit to be organized and neat. Most people don't like visiting or living places that are dirty and messy, and it's not just your mom and dad's job to keep it clean. If you learn to keep yourself clean now and put things away where they belong, when you grow up it will be easier to keep everything in order. Then your house, your classroom, and everywhere else will be nice places for everyone!

## Materials:

- Popsicle sticks
- Markers
- Hot glue gun
- Hot glue
- Glitter glue

## Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students color and decorate their popsicle sticks however they would like. Make sure they have around 35-40 sticks each
3. After they're done with the markers, hot glue their sticks together as shown in the photo.
4. Once the hot glue dries (usually very quickly) allow them to decorate with glitter glue if they like.
