

SUNCATCHER PATRIOTIC STARS

Lesson of the Day:

You are all stars! Each and every one of you has something that makes you special in some way. When we find what makes us special, we should use it to help others and make our country a better place!

Materials:

- Coffee Filters
- Red watercolor paint
- Blue watercolor paint
- Scissors
- Eye droppers

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students cut star shapes out of the coffee filters.
3. Line a tray with wax paper (regular paper will absorb the colors and the suncatchers won't be as bright)
4. Put out droppers and the paint.
5. Have students use the droppers to pick up and drop paint onto the coffee filters. The paint will spread out. Have students keep going until they have covered the entire star.
