

# TOILET ROLL OCTOPI

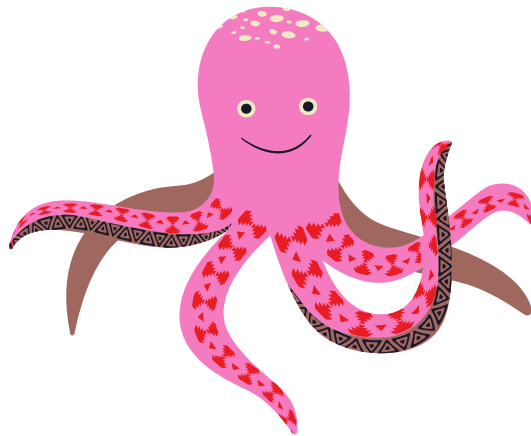

## Lesson of the Day:

How many arms do octopuses have? Did you know they also have three hearts? So that must mean they are kind creatures who love to give really good hugs! If you need help, use your arms to reach out to someone around you. If someone is reaching out to you, be like an octopus, and use your heart to support them.

## Materials:

- Toilet Roll
- Sequins
- Scissors
- Tissue paper
- Glue
- Googly eyes
- Markers

## Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students glue tissue paper to the outside of their toilet roll. Once it is covered, cut the bottom of the toilet roll into eight strips for the octopus legs.
3. Have students glue sequins onto the legs as suckers. Have them add googly eyes.
4. One they are dry, have students draw the rest of the face or any other details they want. Stuff the octopuses with tissue paper to give them a top to their head.
